[REDACTED] OSI

Walt: FYI. Attached is the correspondence I referred to during our telephone conversation last Friday. I gave a copy of this to our DDS&T Security Staff to check with [REDACTED] O/S, who you mentioned had conversations with OSI prior to his preparation of the Agency replies specified by the Englishman [REDACTED] in his letter to the V-P.

The "Dr. James McDonald" cited in [REDACTED] letter was in Australia on 8 July making similar charges against the CIA debunking the UFO as you will note from the attached news item.

May we have OSI's comments on the substantive part of the letter for background information.
