MEMORANDUM FOR: General Carter

SUBJECT : [redacted]

25X1

1. Regarding [redacted] comments are attached (Tabs A and B) from [redacted] on his possible use. At present neither has a specific need for his experience. I have not checked out [redacted] for possible use with other Agency S&T components. I believe you will find that [redacted] is not enthusiastic about using [redacted] as his chief staff man, at least not until [redacted] has learned his way around the Agency.

2. [redacted] has submitted papers (Tab C) which arrived here on 5 July. No actual processing has begun.

3. The other prospects, [redacted] and [redacted] (Tab D), submitted by [redacted] are of no immediate interest to OSI. I will ask [redacted] to come to Washington to talk with S&T components that might use him. I suggest that I have copies made of the data on each of those three individuals to hand out at the next RDRB meeting. I think we can get a very quick reading there on the useability of each.
