

NOTES FOR DDCI

30 June 1964

1. In answer to your query, you are a member of the United Airlines 100,000-Miler Club. That accounts for your recent mail. The formal presentation to you of a plaque and your credentials as a club member will presumably take place sometime in the near future.

Meanwhile, there has been a slight delay in getting your membership in the American Admirals Club, but this will come along in due course as will membership in the TWA club.

2. When the DCI signed off on the latest quarterly report on the number of TKH billets by agency, he expressed some concern that the CIA figure is about [redacted] and he asked Walt to remind him to ask you about this. I have asked [redacted] to get together with Security and give me a paragraph's worth of explanation as to how we got to this figure.

3. Secretary Ailes of the US Army has written to Mr. McCone thanking him for his recent address to the Army War College. Ailes said General Train "was so enthusiastic in his praise of your performance" that Ailes felt he wanted to add his own thanks.

✓

4. The minutes of the State Department staff meeting of 24 June show that former Senator Bill Benton has prepared a lengthy report following a recent visit to Moscow where he met with Khrushchev among others. The report is said to be inches thick. The main points are: (a) the Soviets are morally convinced of the rightness of their aid to rebel causes (thus, we should not expect cooperation from the Soviets in stabilization efforts in less developed countries); (b) with respect to Cuba, the Soviets are genuinely worried about "trigger happy" Cubans; (c) the Soviet fear of [redacted] is genuine.

✓

5. The DCI ^{approved} signed off on the OGC recommendation to provide the sensitive nuclear info to [redacted] on the Stennis Committee staff.
