3. In one of your folders is a chronology of the [Redacted] story sent to you by [Redacted] following Bannerman's recent session with Hughes and [Redacted]. I have sent Bannerman a copy of this chronology. Bannerman is considering a recommendation to you on what to do next. Before writing to Rusk, it appears that you will need to get together with Hughes to get an explanation to two important questions not answered in [Redacted] letter to you. They are: (1) in view of the "policy directives" that State considered itself to be operating under, why didn't [Redacted] or Hughes speak up at USIB meetings when USIB was attaching so much sensitivity to the information and (2) how is it that the Department felt it could remove the NOFORN and NO DISSEM ABROAD controls placed on the information by USIB.
