

NOTES FOR DDCI

14 January 1964

1. You asked whether there was anything in writing on the business of getting the President to reconfirm the Kennedy letter to the DCI of 16 January '62. The answer is negative. DCI decided on his own he would seek such confirmation and left with the President one day last week a copy of the Kennedy letter. The President told DCI he would go to work on this.

4. DCI has received a response from McNamara which thanks the Agency for the recent letter on our views concerning the master plan for the NMCS. McNamara says that the plan has incorporated certain changes suggested by us and will be happy to have any further revisions in the future. McNamara says he welcomes the CIA representative in the NMCC and has asked Horowitz to get together with our representatives and work out an agreement on this assignment. A copy of the letter has gone to [Redacted]

let me see - also get copy to DD I + EOD Tr.

5. Ever since his trip last year to Europe, DCI has been intrigued by a guy named [Redacted] who was touted to DCI by [Redacted] as a real "hot shot" Kremlinologist. DD/I has advised DCI that [Redacted] is a recognized authority and that we have access to articles he has published. DCI in turn has told DD/I to establish appropriate contacts with [Redacted] in order to get items from him which he does not publish.
