NOTES FOR DDCI

24 December 1963

1. I have had a couple telephone calls from branches in DD/P asking permission to use yours and DCI's name in passing holiday greetings to appropriate foreign contacts. This is usually an SOP sort of thing and I have concurred, as has Walt for DCI. Is this OK?

5. As you probably know, the Joint Chiefs and the NMCC have apparently been somewhat confused about who their peg points are at CIA in discussions concerning the NMCC. [Redacted] has written to Admiral Riley explaining that policy matters connected with the Master Plan for the National Military Command System are to be taken up with [Redacted] whereas day-to-day operational liaison can be taken up with DD/I, particularly JJ Hitchcock.
