2. I think, too, that the 9:00 meeting would also find interest in the intelligence you uncovered at the State/JCS meeting about State unhappiness over the name CINCSTRIKE.

3. [Redacted] of DIA visited [Redacted] on 20 and 21 November and were much appreciative of the briefing.

5. WE Division has done a memo for the DCI on the new Italian government under Aldo Moro. The 26-member cabinet includes 16 Christian Democrats, 6 Socialists, 3 Social Democrats and 1 Republican. With the exception of the Minister of the Budget, Giolitti, the cabinet's composition does not warrant any concern over Italy's foreign policy. Giolitti is worth watching, however; he was a Communist Party member until 1957.

7. DD/I officers charged with developing Agency positions for you on USIB meetings are having some problems with the items raised by DNRO at USIB. DD/I has been unable to get ^{an} advanced line on what McMillan will say at USIB ([Redacted] does not seem to know, himself) and there has been a tendency for USIB to accept some of McMillan's points to the chagrin of DD/I. I have suggested that J. J. Hitchcock and [Redacted] sit near you at USIB meetings and pass you notes when they think violence is being done by McMillan. I also suggest that you charge [Redacted] with informing the Agency prior to USIB meetings of the topics and lines McMillan will pursue.
