Dr. Brockway McMillan  
Director, National Reconnaissance Office  
Washington, D. C.

Dear Brock:

This refers to your comments in your note of 29 March bearing on the operation recently successfully terminated during which our people provided Colonel Heran, through his people at the [Redacted] the data which are required, particularly the "quick look" information. I wish to point out, however, that as far as I can determine this detailed data exchange was a continuation of procedures that have long been in effect between my AP people, the 241 Program Office representatives at the AP, and the [Redacted] rather than a new departure or resumption.

In any event, you should know that we are always anxious to lend whatever help we can in establishing and maintaining proper relationships between our two organizations to the end that the best interest of the Government as a whole is served.

Faithfully yours,

NRO review(s) completed.

WASHINGTON

March 29, 1965

Dear Pat,

I have been in touch with our West Coast people during this current operation, and General Greer has informed me that your people have resumed providing the necessary data at the STC to Colonel Heran during the on-orbit operations. I am particularly pleased that we again can benefit from the "quick look" data provided by your people before it goes back to the A/P. I would like to express my sincere appreciation to you for your personal efforts in restoring a successful working relationship in the on-orbit operations.

Sincerely,
