

19 August 1966

MEMORANDUM FOR THE RECORD

Morning Meeting of 19 August 1966

[Redacted]

25X1

DD/I reported on some new developments in North Vietnam indicating that cruise missiles may be present there. He also noted some unusual activity relating to SAM's.

[Redacted]

25X1

DD/I noted that recent NPIC recruiting efforts in Los Angeles, which included newspaper advertising, had resulted in a good deal of favorable publicity for the Agency.

[Redacted] raised the subject of a possible [Redacted] mission later this month. The Director asked him to get telephonic concurrences from the 303 principals and to take whatever other action is required.

25X1

DD/S noted that the road resurfacing program at Headquarters would be completed this weekend.

25X1

Warner reported that the Stennis Preparedness Investigating Subcommittee would be requesting a briefing from the Director on the military threat to the U. S. in about two weeks. The Director requested the DD/I and Warner to discuss the briefing with members of the subcommittee staff and asked the DD/I to prepare a first-class briefing for the subcommittee.

Bross reviewed the status of the actions which resulted from the last PFIAB meeting. He noted that the problem of labeling for publications had been resolved. He also noted that the review of the NSCID's, although not yet completed, indicates no changes are required at this time. He stated that the review of the NSCID's is related in part to the problem of field inspection and that further study is required of this aspect. Bross suggested that the Director meet with Mr. Knox for an informal discussion of the Knox Panel's findings. The Director agreed. Bross reported that the PFIAB will meet again on 29 September.

DD/S&T reported that the current [redacted] vehicle is experiencing some technical difficulties. He noted that the take from the CORONA mission is as good as any in the past. 25X1

DD/S&T passed to the Director and the Executive Director a list of Agency technical publications for distribution outside the Agency. He also provided a distribution list for review by the Director and Executive Director.

25X6

[redacted]

DD/S&T noted that [redacted] is to take over [redacted] and suggested to the Director that he meet with [redacted] in the near future. The Director agreed. 25X1 25X1

Executive Director reported that Admiral Raborn had asked him to inform the members of the Executive Committee of his deep appreciation for their work during his tenure.

The Director announced that Dr. Wheelon will resign from the Agency on 23 September to join Hughes Aircraft Corporation. The Director noted that Carl Duckett would be Acting DD/S&T for the time being.
