25X1.1

ACTION: A briefing statement is to be prepared for General Carter's use on the understanding this is to be confined to counterinsurgency.

4. In connection with the Counterinsurgency Doctrine paper, this is being redrafted to accommodate the views of State, JCS, and DOD. There was a discussion of the charter of the Special Group (CI) and it was agreed that this Group would not have the authority to approve programs by existing agencies and departments. General Taylor said that the Special Group (CI) acted as a focal point for the President with McGeorge Bundy as an Adjutant General, and that the Special Group (CI) acted on the basis of special National Security Action Memoranda. On the other hand, the 5412 Group is, by the terms of its charter, a corporate entity with the power to approve programs.
