

TOP SECRET

DAILY STAFF MEETING

Thursday, 28 June 1951

Mr. Reber discussed Dr. Langer's proposal regarding guidance to be given by ONE to the intelligence producing agencies. It was noted that ONE felt there was immediate need for more substantial contributions from these agencies and that this raised the question of a larger staff in ONE. Mr. Reber also stated that he believed that if ONE were to produce national intelligence studies that possibly the word "national" should be left out since the IAC agencies are now of the opinion that any such study produced was the responsibility and production of CIA.

Mr. Reber reported that Mr. Lynn, formerly of the Bureau of the Budget, was to go to State as Chief of the Economics Reports Section of the Foreign Service. He noted that this was a good move for CIA and believed that we would get more support in the future.

Mr. [] briefed those present on his meeting with Killea of Armstrong's office.

Mr. [] stated that in his conversation with Col. Johnston that Johnston had said he believed that the Commercial Division of [] should be raised to Office level. After some discussion, it was agreed that this matter should be held in abeyance in view of the number of Offices already in the Agency and that further discussion on this matter would be held between DD/P and []

Mr. [] stated that ONE now has representatives sitting with the Publishing Board of OCI in an effort to iron out the difficulties between OCI and ONE regarding contents of the Current Intelligence Bulletin.
