Mr. Wisner (Continued):

McCarthy was planning a trip to the Far East, travelling as an individual and not as a member of his Committee. It was agreed that the Acting Director would get in touch with the Senator and offer a briefing on the intelligence picture, as well as our operational activities in that area, to include [redacted] and selected past operational projects. It was also agreed that the intelligence and operational presentations would be made by Messrs. [redacted] and [redacted] respectively.

Mr. Kirkpatrick:

Raised the question of a briefing for Governor Langlie of Washington, and after some discussion wherein General Cabell pointed out it was incumbent upon CIA to provide briefings for VIP's when requested and on a need-to-know basis, it was agreed such an offer would be made to Governor Langlie. Mr. Amory undertook to follow up in this particular instance [redacted] It was noted that in offering a briefing to Governor Langlie we were assuming the risk of increasing the number of briefings which might be requested.

Mr. Helms:

Reported that the Army and Navy Members of the Inter-Agency Priorities Committee (IPC) had requested an increase in their membership by one each. Mr. Helms said at the present time the Service agencies were represented on this Committee by a principal and one alternate. Mr. Kirkpatrick pointed out that due to the constant turnover in Service personnel assigned to Washington, any such increase would substantially add to the number of outside individuals having knowledge of CIA covert operations. Note was also taken of General Smith's request to the IAC that notations should be made in the personnel files of officers participating in the activities of the IPC to the effect that these officers should not be reassigned for a period of time to locations where they might fall into the hands of unfriendly powers. After some further discussion, A/DCI approved the increase requested by the Army and Navy.
