should not be carried in the Bulletin. Mr. Sheldon said that as a matter of policy we do not put items in this publication which have not been given some previous dissemination (even on a limited basis) to the Community since if we do, we are immediately accused of holding out. [redacted] commented that the source of the information contained in the above cable is wearing thin and agreed with Mr. Sheldon that our basic policy on disseminations vis-a-vis the Bulletin should be maintained. He said he believed this because: 1) from a public relations angle the Indians of the other agencies would certainly accuse us of making information of certain categories available only to their chiefs; 2) comments made by CIA on Bulletin items are not always accepted as gospel and therefore the Service Intelligence Agencies in particular like to put their slant on selected items. The Director noted his agreement with the points made by Messrs. [redacted] and Sheldon but asked that dissemination of the information contained in the cable in question be made either through a TD or otherwise. ACTION: DD/P.

General Cabell:

[redacted]

25X1 Referred to the discussion at the Deputies' Meeting on Wednesday,
3 July, respecting the aerial survey program of Afghanistan to be conducted
by the Fairchild Aerial Surveys and asked if any action had been taken to
raise the additional \$500,000 to put this project into operation. Mr. Dulles
said he had intended to bring it up at the OCB but did not have the opportunity
to do so. [redacted] undertook to discuss it with some of his people and
come up with a recommendation as to whether this Agency should participate.
