Dear Mr. Dulles:

When you state that Mr. Khrushchev has interpreted the writings of Lenin, that the complete communization of the world is possible through subversion instead of war, you are incorrect.

EXECUTIVE SECRETARIAT

Mr. Khrushchev takes into consideration the present struggle in the U.S. to liberalize the Social Security act to give various benefits to the American citizens. He well knows that is the first large step to the Socialist state in the U.S., as the insurance companies and banks will lose a lot of their economic power. If the future Congressional sessions do not give the public the liberalized Social Security, the U.S. must move toward a Fascist state. When capitalism reaches the end of its reign

is no middle road when capitalism dies.

Mr. Khrushchev correctly interprets Lenin that in a democratic state such as the United States it will turn to democratic socialism. Fascism must be accompanied by violence which would destroy our great country and socialism will rule the world.

If we take the lead for a democratic socialist country, the rest of the world will follow, both capitalistic and communistic.

Sincerely,

M. D. Schneider
