Honorable Raymond Blattenberger
The Public Printer
Washington 25, D. C.

Dear Mr. Blattenberger:

The Central Intelligence Agency recently had occasion to request unusual rush service from the Government Printing Office in connection with printing required for the Cornerstone Ceremony of our new building. Embossed invitations and envelopes were delivered in only three working days and 20,000 copies of the program were delivered in only six working days. We are greatly appreciative of this excellent support.

Several of your staff deserve special mention in connection with this fine support. Mr. Wallace Leek of the Planning and Service Division was most cooperative in assisting in the planning of the work and also in obtaining the necessary priority to insure expeditious delivery. Mr. Frank Mortimer of the Typography and Design Section was very helpful in planning the format of the program. All concerned did everything possible to satisfy our requirements and to insure delivery when it was needed.

It is a pleasure to express our appreciation for this fine service.

Sincerely,

Signed

L. K. White
Deputy Director
