Dr. Aaron N. Gorelik ✓

Dear Dr. Gorelik:

Thank you for calling my attention to the cancer treatment with Peroxydase. I have forwarded this suggestion to my brother's consultants at the National Institutes of Health and the Walter Reed Hospital, and they have given it careful review. These physicians have assured me that in their frequent meetings they discuss the available treatment in order that a consensus may be reached as to the best possible treatment for him.

Thank you for your interest and your kindly suggestions.

Sincerely,

SIGNED
