Dear Senator Allott:

In the absence of Mr. Dulles, I wish to thank you for your letter of August 26, 1955 regarding the interest of the T. H. Buell and Company, of Denver, Colorado, in being considered as architectural engineers for the new CIA headquarters installation, either as an individual company or in association with others.

We appreciate your recommendation of T. H. Buell and Company, and shall be glad to have them in mind if it is determined that we will have additional architects.

With kindest regards.

Sincerely,

*WLP* *J...*
