1. As a result of a decision on the part of the Department of Defense to recommend that the VOA problem be given further consideration by USCIB, the problem was proposed for discussion at the last USCIB meeting, on 15 September 1950.

2. At that time USCIB agreed that there would be established an Ad Hoc Committee to consider with the VOA representatives the problem of providing assistance to VOA program to include the determination of estimates of personnel, facilities and funds required to carry out the program envisaged by the VOA; and that the military services would proceed on an interim basis with an effort to determine what assistance to the VOA could be rendered with existing facilities and personnel.
