~~SECRET~~IAC-M-282  
26 March 1957

1. Approval of Minutes  
19 March Meeting  
(IAC-M-281)

Approved as written.

2. Watch Committee Report  
No. 346

Noted.

3. Draft Handbook of Standing  
Subcommittees of the IAC  
(Memorandum to IAC, 6 March,  
Limited Distribution)

Noted this handbook, agreed that it be classified "Secret," and approved its further dissemination, as amended, to IAC members in the number of copies requested (such requests to be limited to five to ten copies), and to General Cutler. With respect to amendments, the members concurred in General Collins' suggestion that the foreword include a notation that no statement in the handbook should be construed to supersede or be a substitute for the terms of reference or mandate under which any subcommittee presently operates. After reviewing the status of the various subcommittees, the members also agreed that hereafter the Domestic Exploitation Committee, the Resistance Intelligence Committee and Standing Committee on Exchanges should be considered as ad hoc rather than standing subcommittees of the IAC and be so listed in the handbook. In view of this decision, it was further agreed that the statements regarding those subcommittees appearing in the draft volume should be deleted from the published handbook.

4. Review of Crisis Situations
  - a. Arab-Israeli Situation

The members reviewed this situation, particularly in the light of comments by Admiral Frost, and concurred in the view that no change in their previous estimative judgments was warranted.

In this connection, the Chairman stated that he would consider including an item on Argentina in his next NSC briefing.

c. Other Crisis Situations

The members also reviewed certain aspects of the Syrian, Indonesian and Suez situations.

5. Visit of Admiral Burke

Admiral Frost noted and discussed with the members certain problems with respect to a projected visit of Admiral Burke to England.

National Estimates Program  
(Memorandum to IAC, 20 March)

Approved, subject to scheduling SNIE 100-2-57, "Enemy Capabilities to Mislead the US," for completion on 23 April, listing a Philippine estimate for IAC review in mid-August, and including an Argentine estimate as the first item on the tentative list. After General Lewis raised a question regarding the target date for completion of NIE 11-4-57, "Soviet Capabilities and Courses of Action Through 1962," the members discussed this matter and agreed to review the timing of this paper at the next regular IAC meeting, in the light of further inquiries with respect to any NSC requirements.
