25X1

3. The proposal (AHIP-D-9, 6 March 1958) of the Office of Scientific Information, National Science Foundation, for a central information and advisory service on Federal Government research and development activities in information processing was discussed. The proposal was approved in principle and a draft reply amended and approved.
4. Mr. Daniels called the members' attention to the following article: Dissemination of Technical, Scientific, and Engineering Information as a Factor on "Competitive Co-existence" by Jennie and Herschel Clesner, pp. 236-254, Federal Bar Journal, July-September 1957.
5. The draft for the Annual Report (AHIP-AR-3, 21 March 1958) of the Committee to the IAC was approved with certain revisions and with the exception of Enclosure "C" - Summary Status of IAC Member Agency Projects on Information Processing Systems. The members agreed to furnish the information necessary to complete Enclosure "C".
