Dear Jerry:

"Project Saucer" has been reviewed by the Air Force and ourselves. The reaction has been negative. Although you are not requesting any assistance from the Department of Defense, it would be appreciated, if you would make changes in regard to CIA, the UFO and the Air Force.

1. Delete reference to CIA. It would not be appropriate to place one of their men in the position fictionalized.
2. The UFO investigation is not set-up factually. Enclosed is a copy of Project Blue Book 1 February 1966 which might be helpful.
3. Air Force General at the testing is an unnecessarily uncomplimentary character. He would not act as he does in the script.
4. It is not clear just what part the Air Force plays in the testing. Any one of the manufacturers could clarify this opening sequence.
5. The Air Force should not be utilized or included in the air drop in China.

Please keep us advised and we will look forward to receiving revised copies of the Dooley Story.

Sincerely,
