March 10, 1986

24/1003

Dear Director Casey:

Following the loss of the crew of the space shuttle Challenger, the Hungarian authorities ordered the issue of a commemorative stamp. As far as I know this gesture is unique within Eastern Europe and was certainly an act which crossed ideological barriers.

I thought you might enjoy having a copy of the First Day Cover issued with the stamp as a present from the members of our Embassy in Budapest.

With warm regards,

Nicolas M. Salgo
