MEMORANDUM FOR: Director of Information Technology, DA

FROM:

Chief, Information Management Staff, DO

SUBJECT:

Request for Special Audit Search

1. It is requested that OIT conduct a special "Audit" search of the VM Special Center.

2. The purpose of this action is to identify all VM user disk space containing the file "Sicko Jokes." It has come to the attention of this office that this file, which contains a list of highly offensive statements, is being circulated among users of the VM system in the DO Special Center. Several of our officers have received the file, unsolicited, and have been very troubled by its contents. It goes without saying that the material contained in this file does not belong on our highly sensitive computer systems and that the use of our computer facilities for this purpose is totally unacceptable.

3. My objective in requesting this action is first to identify those users in the Special Center who have the file on their personal disk space and then to instruct those identified that the file is to be removed immediately from the system.

4. Your prompt attention is requested in this matter. Any questions regarding this action should be directed to
