MEMORANDUM FOR: Deputy Director for Administration

FROM:
Director of Logistics

SUBJECT: Headquarters Cafeteria

REFERENCE: Memo for D/L fm DDA (89-1633), dtd 12 Sept 89,
Same Subject

1. Your interest in assuring that Agency cafeteria prices are competitive with other federal government cafeterias is timely and welcomed. With nearly customers per year served at the Headquarters cafeteria, the profit potential is considerable. Some of the actions taken to date, as well as our plan for improving food service in the future, are explained below.

2. The Facilities Management Group is currently conducting a comparative pricing survey; the preliminary results of the survey are attached for your review. Based on the information collected to date, we believe prices at the Headquarters cafeteria are generally higher than prices at similar cafeteria operations. The variance is currently being studied.

3. For the Agency to contract independently, we must obtain a "concessions" delegation from GSA and formulate a procurement strategy and a management methodology that will improve food service throughout the Agency. We are in the midst of identifying and defining food service contract requirements and will discuss our desire to assume this responsibility with GSA, much the way we took on facility maintenance and operations. Our goal is to provide food service for Agency personnel at reasonable prices during hours suitable to support daily operations. We plan to provide you a progress report in November.

MEMORANDUM FOR: Director of Logistics
FROM: R. M. Huffstutler
Deputy Director for Administration
SUBJECT: Headquarters Cafeteria

STAT

1. I received a visit from [redacted] who, representing a group of fellow diners, registered some stiff complaints about the prices in the Headquarters cafeteria. She had prepared a list of recent increases such as muffins, tuna salad, luncheon specials, etc., which had recently gone up 25 percent or more. She argued that the prices are not competitive with cafeterias elsewhere in the Federal Government or with local eating establishments. She stated that the individual prices for paper plates and napkins were unconscionable and that the fast food areas, which are to be opened in the near term, promise to be more of the same.

2. Please survey the cafeteria prices and make sure that they are competitive with other Federal Government cafeteria prices. Please make sure that charges are displayed so that people understand that they pay for disposable ware. Take any measures that you deem appropriate to contain prices and prevent unreasonable increases. I would be interested in knowing the results of your survey as well as the next scheduled date for renegotiation of the cafeteria contract. Depending on what you find out, you may want to consider an employee bulletin giving some background on the situation in the Headquarters cafeteria. If it turns out that the prices are, in fact, not competitive, then some explanation is worthwhile. Please let me have your response by 10 November 1989.

SUBJECT: Headquarters Cafeteria

Roy/Rae, ..

STAT

1. FYI. Facilities Management Group, OL stopped by and provided a verbal update on the ongoing Headquarters Cafeteria Survey. What they are finding is that our cafeteria is priced about 20% higher than other government cafeterias around town. The answers to this problem appear obvious: obtain the concessions delegation from GSA and rebid the contract which was last bid in 1974. I told that what we are looking for at this point is a game plan and schedule. We should have a progress report by the end of the month.
