

DCI/ICS-86-0845
23 June 1986

MEMORANDUM FOR: SIG-1 Working Group Members
SUBJECT: Remaining Sections, Draft Report

1. Herewith for comment are Sections VI. C. and E. They deal, in conformity with the outline, with those counterintelligence tasks other than protection of national security information.

2. Subject to the group's concurrence, I propose to eliminate Section D. My analysis of what it was to cover led me to conclude that:

- a. Analysis of Soviet Deception/Denial was not a counterintelligence task.
- b. Assessment/Support of Intelligence Collection was primarily OPSEC.
- c. Control of Sensitive Technical Collection had to do mainly with compartmentation and/or deception; the first covered elsewhere and the second only peripherally involving counterintelligence.
- d. State was unwilling to provide any relevant information relating to the Diplomatic Security Service.

3. I am the first to admit that the drafts need considerable work. Would appreciate your comments by COB 30 June. If you believe that there should be a Section D., please include your draft thereof.

Richard C. Stilwell
