Bonn announced yesterday that it has spent or committed \$10.6 billion to support coalition efforts. Germany will pay the United States \$5.5 billion to defray war expenditures and is providing equipment and logistical support it values at \$1.2 billion. Bonn agreed to give London \$650 million, including over \$100 million in equipment. Materiel provided to Turkey is worth \$1 billion, excluding the cost of German air defense units deployed there. In addition to military aid, the German government is providing \$1.4 billion in economic aid to the frontline states and Israel.
