

25 January 1983

MEMORANDUM FOR: Director of Central Intelligence
FROM: SA/DCI/IA
SUBJECT: SPG Meeting on Public Diplomacy, 26 January 1983

1. I have included several papers of interest for this meeting.

2. In light of the fact that intelligence community participation is sensitive, [REDACTED] suggested that if you want someone to accompany you, someone from the DDI should attend. [REDACTED] will be in New York on Wednesday and thus will not be able to attend. [REDACTED] has been active in one committee, but perhaps someone with broader responsibilities should attend.

3. Walt Raymond informed me that the White House is still considering whether to appoint Dick Stone to handle the Central American portion of this effort.
