

MONTHLY REPORT  
 NHA - TRANG  
 MAY 1969

GENERAL

May was a rather quiet month again. On Saturday 31 May we received about ten rounds in the afternoon but with little damage to the base and no damage to AAM facilities. There were a few incidents in town where two servicemen were killed. These were attributed to conflict with some of the local popular rather than an organized effort of hostile forces.

The station continues with a general clean-up and improvement campaign. Mr. D.A. STRAND, Senior Air Operations Officer of USAID/COMUSMACV relinquished his position to Mr. Thomas Lilly at this station on 29 May. Mr. Lilly, arriving from Can Tho, was previously assistant to Mr. Strand at Nha Trang prior to his transfer to Can Tho. Initial contacts indicate a great improvement in customer relations.

TRAFFIC

A. GENERAL

Overall Traffic activities decreased very slightly from the last month with an increase in passenger handling of some 801 persons.

DTD visited NHA during this month and assisted by pointing out areas of potential improvement. All suggestions will be handled during June.

CUSTOMER RELATIONS

Customer relations continue to improve slowly with the arrival of Mr. T. Lilly who has replaced Mr. D.A. Strand as Sr. Air Operations Officer USAID/COADS. An initial coolness is expected until such time as both parties evaluate each other. We are not overlooking the fact that previous difficulties may have been between subordinates and clears of both groups. The most important faced is to build and retain good communications between AAN and USAID/COADS at the highest local/airport level in order to moderate any difficulties at a lower administrative level. Mr. Lilly and SZ/NEA already concur on this point and we are both working towards this.

OPERATIONS

A. GENERAL

SCR J.D. Faulding returned to the United States on A/L. Mr. T. Sheehy has assumed his duties. All in all a smooth month.

ELECTRONIC MAINTENANCE

UHF/VHF relay continues to operate in a fairly good mode. [REDACTED] arrived from DMG to assist in "peaking-up" our overall station radios. He will return in June to complete the work and much improvement is expected.

ADMINISTRATION

While May was a fairly routine month, June is expected to be quite busy. We begin construction of the hanger leanto, the parking lot, and maintenance improvements of the Administrative/Traffic building. June should prove to be a month of many accomplishments.
