INTRA-SINO-SOVIET BLOC TRADE IN PETROLEUM  
1952-56  
SUPPLEMENT\*

Data on foreign trade in petroleum recently obtained from the Bulgarian and Czechoslovak statistical yearbooks 1\*\* necessitate a slight revision in the statistics presented in CIA/RR 127. 2/ The Bulgarian yearbook reports imports of petroleum from the USSR and Rumania as well as total imports. Unknown quantities of petroleum have been reported shipped to Czechoslovakia by the USSR, and it was therefore assumed that the additional amounts imported by Czechoslovakia indicated in the Czechoslovak yearbook originated in the USSR. The new data result in an increase in the estimate of exports from the USSR and a small decrease in the estimate of exports from Rumania. Known imports from the Free World were subtracted from the quantities reported in the yearbooks.

The revisions are significant for Bulgaria and Czechoslovakia in certain postwar years, but in no one year do the revisions in the overall trade balance in the Bloc exceed 7 percent, a figure within the estimated margin of error (plus or minus 10 percent) of the data presented in CIA/RR 127. The category "unspecified" under "type of product" represents the difference between the new totals and those given in CIA/RR 127.

The tables that follow should be substituted for the corresponding tables in CIA/RR 127.

\* The estimates and conclusions contained in this report represent the best judgment of ORR as of 1 March 1958.

\*\* For serially numbered source references, see the Appendix.

APPENDIX

SOURCE REFERENCES

Evaluations, following the classification entry and designated "Eval.," have the following significance:

<u>Source of Information</u>	<u>Information</u>
Doc. - Documentary	1 - Confirmed by other sources
A - Completely reliable	2 - Probably true
B - Usually reliable	3 - Possibly true
C - Fairly reliable	4 - Doubtful
D - Not usually reliable	5 - Probably false
E - Not reliable	6 - Cannot be judged
F - Cannot be judged	

"Documentary" refers to original documents of foreign governments and organizations; copies or translations of such documents by a staff officer; or information extracted from such documents by a staff officer, all of which may carry the field evaluation "Documentary."

Evaluations not otherwise designated are those appearing on the cited document; those designated "RR" are by the author of this report. No "RR" evaluation is given when the author agrees with the evaluation on the cited document.
