

Peter: Am enclosing copy of letter received by [REDACTED] (B)(1)
[REDACTED] from the bank in Strasburg with some notes by Ted Hamilton (S)(3)
which are self explanatory. As far as her account of the matter 5
goes, [REDACTED] did return from London and go to Arles with
Jackson about this time and certainly not before. Cannot vouch
for the money having been held in Lyon while he was in London
but think it very likely, and if we were responsible in this way
for the deposit having been made after the closing date believe
you will agree that we have some responsibility in the case. Of
course it is true that she should have investigated before depos-
iting etc., however, all things considered believe we should hel-
p if we can. (Annie W confirms the fact that we did hold a sum of
money for him while he was in London but whether at his instiga-
tion our ours she doesnt say, probably ours) According to Ted she
now needs this badly to get along. Jackson can probably supply
any further details necessary. Please send your comments on this
to Ted as he is on the ground.
