F-2000-02350

Dear Coordinator:

Under the Freedom of Information Act, 5 U.S.C. subsection 552, I am requesting information or records regarding the ~~TWA-800~~ accident on July 17, 1996. The CIA produced a video which was televised nationally and it showed the aircraft losing the whole nose section and then climbing about 3,000 feet. As a retired pilot, that seems incredible to me. I would like to review the process used to arrive at that conclusion. Would you please provide me a copy of the computer program and the data used to produce that computer simulation?

If there are any fees for searching for, reviewing, or copying the records, please let me know before you task my request.

If you deny all or any part of this request, please cite each specific exemption you think justifies your refusal to release the information and notify me of appeal procedures available under the law.

If you have any questions about handling this request, you may telephone me at

Sincerely,

APPROVED FOR
