PHOTOGRAPHIC INTERPRETATION REPORT

SUMMARY

BLACK SHIELD MISSION BX6723

17 SEPTEMBER 1967

NPIC/R-194/67
NOVEMBER 1967

~~SECRET~~
Approved For Release 2000/04/17 : CIA-RDP78B04560A006100010022-7

GROUP 1 EXCLUDED FROM
AUTOMATIC DOWNGRADING
AND DECLASSIFICATION

WARNING

This document contains information affecting the national defense of the United States, within the meaning of Title 18, sections 793 and 794, of the U.S. Code, as amended. Its transmission or revelation of its contents to or receipt by an unauthorized person is prohibited by law.

PREFACE

This report represents a summary of targets covered by the subject mission. Those targets which reflect no significant change in facilities from the most adequate previous mission will carry the appropriate mission number and date, prefixed by the letters "NAC," as the last entry on the photo reference line. Targets which can be identified only will carry the letters "ID ONLY" as the last entry on the photo reference line.

The header line for each target contains, reading from left to right, the installation name, the geographic coordinates, the World Aeronautical Chart (WAC) number, the Basic Encyclopedia (BE) number, and the NPIC target number. The COMIREX target number, when available, appears between the installation name and coordinates.

All targets are arranged 1) by country, 2) within country according to subject, 3) within subject by WAC area, and 4) within WAC area by geographic coordinates in ascending order.

The map base used for derivation of coordinates is the best available among these series: US Air Target Chart (Series 200), AMS (1:50,000 and 1:250,000), JOC (1:250,000), ONC (1:1,000,000), and IMW (1:1,000,000).

Photo reference data includes frame numbers and symbols denoting limiting conditions, photo interpretability, target coverage, and the mode.

Symbols for limiting conditions affecting photography are C (clear), SC (scattered cloud cover), HC (heavy cloud cover), H (haze), CS (cloud shadow), S (snow), O (obliquity), SD (semidarkness), GC (ground cover), CF (camouflage), and SS (small scale).

Interpretability of the photography is characterized as G (good), F (fair), or P (poor). Target coverage is denoted by the symbols T (total) or PT (partial). The mode of coverage is indicated by ST (stereo), PS (partial stereo), or NS (nonstereo).

AAA defenses are divided into four categories: automatic weapons (ZPU-1, ZPU-2, and ZPU-4), light (21-75 mm), medium (76-100 mm), and heavy (over 100 mm). Where a category cannot be determined, the site will be listed as an AAA site and the number of guns indicated (e.g., 6-gun AAA site, occupied/unoccupied).

For the convenience of the user, an index to all targets is included. Targets are arranged alphabetically within a country.

ITEMS OF SPECIAL INTEREST

NO EVIDENCE OF OFFENSIVE SURFACE-TO-SURFACE MISSILE EQUIPMENT OR FACILITIES IS OBSERVED.

A TOTAL OF 126 SA-2 SITES ARE IDENTIFIED. OF THE 126, 19 ARE OCCUPIED (1 NEWLY IDENTIFIED), 89 ARE UNOCCUPIED (1 NEWLY IDENTIFIED), AND 15 ARE IDENTIFICATION ONLY.

SEVEN MAJOR AIRFIELDS PROVIDING ORDER OF BATTLE INFORMATION ARE COVERED.

HA NOI AND HAI PHONG ARE IMAGED ON GOOD QUALITY PHOTOGRAPHY. SEVEN ADDITIONAL COMPLEXES, 3 MAJOR PORTS, AND 3 RAILROAD YARDS ARE INCLUDED AS ATTACHMENTS.

OF THE 18 PHOTOGRAPHICALLY CONFIRMED AW GCI RADAR SITES, 15 ARE IDENTIFIED ON THIS MISSION. SIX OF THE 15 ARE OCCUPIED.
