TELEPHONE CALL TO MR. MC CONE

Mr. McCone said that their people feel that public opinion in Chile was pretty well united against sanctions against Cuba. Frei has said that his vote would cost him 100,000 votes. McCone said they believed, however, that he can disassociate himself from any responsibility for this action and hence they thought he was ~~over-exaggerating~~ over-exaggerating the consequences. Sec asked if he had said this publicly and McCone said he didn't know. McCone said they saw no reason why it would have a serious effect. McCone said they would work out the Frei end of it.
