

THE DIRECTOR OF CENTRAL INTELLIGENCE

WASHINGTON, D. C. 20505

6 August 1974

APPROVED FOR RELEASE
DATE: JUN 2002

MEMORANDUM FOR: The Secretary of State
The Secretary of Defense

SUBJECT : French Request for Data on the
Locations of Soviet Missile Sites

1. This memorandum informs you of a French request for data on the locations of Soviet missile sites and describes the action I intend to take. I am raising this matter with you to determine whether you want to use this particular action to foster some other military or political objective in your dealings with the French.

2. Major General Jarry (the French Defense Attache in Washington) has transmitted a request for these data from General Moran (Chief of Staff of the French Armed Forces) to Vice Admiral de Poix. Specifically, two types of data are requested:

- Locations of surface-to-air missile sites in the USSR west of longitude 50° east, ostensibly for assisting the French in plotting tracks for their strategic aircraft strike force.
- Locations of MRBM and IRBM sites in the USSR west of 75° east, which can reach France.

3. General Jarry has indicated to Admiral de Poix that if our response is favorable, the French would give positive consideration to some appropriate information in return. In fact, the French have very recently become forthcoming by

EO 12958 3.4(b)(1)-25Yrs
EO 12958 3.4(b)(6)-25Yrs

[Redacted]

EO 12958 6.1(c)-25Yrs

Mandatory Review
Case NLNS 01-11
Doc. 6 2 pages

[Redacted]

4. I intend to approve the French request for the following reasons:

- General Brown and Admiral de Poix recommend the French request be satisfied.
- The data requested is regularly passed to NATO components.
- The Soviets certainly know that we have this information.
- There is little likelihood that providing these data to the French will jeopardize the intelligence source from which the information is obtained.

In order to protect the true accuracy of our information, I shall authorize the release of data on these locations to the nearest minute, even though the data we provide to NATO is to the nearest second. Admiral de Poix assures me that locations to the nearest minute will meet the needs of the French Armed Forces.

5. If you wish to use this action in connection with some other relationship with the French, please let me know. If I do not hear from you by 12 August, I shall inform Admiral de Poix of my approval on that date.

W. E. Colby

cc: Admiral de Poix

*French informed by
Gen. Walters in Paris that
SAM info would be
provided, that they should
use White House channel in
future.*
