HUL-A-34: Attachment 1

1. PT/3, PT/6, PT/7

To create hope and patience among FAGE, CEUAGE and the LIONIZER group in [] we suggest that controlled groups in other areas send cables or letters of support to these three groups. This support should be to the fullest extent consistent with security.

One such support message could emanate from the [] and another from the [] group suggested by the Deputy Chief, WH. Lincoln suggests that Headquarters make these requests of the appropriate stations.

Suggest FAGE CEUAGE & LIONIZER take initiative in soliciting support cables:

A - Write to KUGOWN groups

B - " " legitimate non-KUGOWN groups

such as ORIT - ICFTU - Anti C.P. - Student groups, etc.

In this manner any mechanisms will not be employed of taking the initiative.

** This was suggested to CEUAGE with request addressed to []*

[] if such a list of possible groups to contact []

HUL-A-34: Attachment 2

2. PT/17

To discredit the target among other coffee-producing countries attending the Caracas Conference and among neighbor countries from which RUFUS needs support, we suggest that Headquarters prepare a black pamphlet which would appear to be blatant coffee advertising by the Target.

a. The Banner would present portraits of Jacobo and Maria ARBENZ in a nauseating Juan/Evita motif. The narrative would include cut-throat claims that only the Target coffee is free of harmful Tarbinosis or other notional irritant.

b. We propose sending large quantities of the above pamphlets to U.S. coffee buyers, who would be certain to pass along the evidence to the representatives of the coffee industries of Salvador, Costa Rica, Colombia, and Brazil.

c. Copies of bonafide Target coffee advertising in English are available at the U.S. Department of Commerce. The distribution problem is simple if the bonafide advertising is normally mailed from the Target, Headquarters stamping and cancellation is apparently no obstacle, but if the advertising contains insertion envelopes bearing target stamps for cancellation in the U.S. Mails, the distribution will be more difficult.

CIPB can't do this. []

HHL-A-34 : Attachment 3

3. PT/17

Lincoln is considering a "liberation currency" operation and requests aid from Headquarters in planning for such an operation.

a. The operation would not disturb or bear any relation to the Quetzal, the present monetary unit.

b. About D minus ten, we are considering an airdrop over the Target of approximately 50,000 paper "libertadores," redeemable after the liberation upon presentation of a certificate of participation therein by bearer. To render the strategem less vulnerable to attack as being mercenary, 50 centavos of each paper "libertador" would become the property of the new ARANA Child Welfare Center, where the redemption office of liberation currency would be set up.

c. Can Headquarters design and print such currency?

what is the purpose?

*Cable sent 10 March
requesting lay-out
& art suggestions.

HUL-A-34: Attachment 4

4. PT/17

Lincoln requests that Headquarters advise it which WH Stations can plant fabricated international telegrams. In the countries where such facilities exist, Lincoln desires to know whether the telegrams must be ostensibly innocuous or whether they can be politically significant and come from well-known persons or organizations.

what is purpose?

~~###~~ cable out

HUL-A-34: Attachment 5

5. Lincoln would like to use radio hams for a rumor campaign. Can Headquarters arrange for two or more cleared hams and instruct them to establish regular contact with several Guatemalan hams? Headquarters is asked to advise Lincoln when and where regular contact is established.

Will the rumors be consistent with the cover situations of the hams? Where they are located — they access to political information concerning Guat etc.

*CPP killed during
LANGTRY visit
