ORIT Conference

REF: [] 1815

1. We have noted reference dispatch and enclosures with interest.

2. We would be particularly interested in receiving from you additional information concerning the distribution of Hubén Villatoro's speech and of the first issue of EL OBRERO LINEA, as mentioned in paragraph 2 reference. How were the copies of the speech and of the newspaper sent to WSHURNT and how many of each? If they were mailed, were they sent by first class mail, as printed matter or how? If they were shipped by other means, what are those means? Is there any way to check whether they were actually received in WSHURNT? Are there any reactions from the recipients -- letters, press statements or the like?

3. We would appreciate obtaining any details along those lines, because we are checking on Hubén Villatoro and all his activities. We have already queried Guatemala Station for any effects of Villatoro's speech which they may be able to notice locally.
