Elliot P. HAZMARA; Commendation; Security

1. You are hereby instructed, also in behalf of HQ, to express to HAZMARA our commendation for the work he has been doing under increasingly difficult and dangerous conditions, for his very valuable reporting and for his proven ability to adjust himself quickly to a different situation.

2. At the same time, we want you to know that we are very anxious to protect HAZMARA from any foreseeable danger, whether it may result from legal action or from physical assault upon his life. While it is understood that his uninterrupted activity with ESSENCE is of vital importance to PBSUCCESS and must continue as long as it is at all possible, you should nevertheless take all practicable steps for his protection and inform us as soon as possible about all the details of your "disaster plan" for him. We expect you also to report any and all developments which may have a possible bearing on subject's security and physical safety.
