Kugown Operational

Razmara-Essence-Calligeris Relationship

1. In a recent conversation with Essence, Razmara remarked that he regularly sends progress reports to interested parties outside. Essence assumed that Calligeris was thereby fully aware of the progress being made by him (Essence Razmara did not deny that Calligeris is being kept informed, but he does not in fact know if that is the case.
2. In order to backstop Razmara in this respect and to prevent any misunderstanding between him and Essence, please advise whether Calligeris is briefed regarding Kugown progress within WSBurnt. If not, please take whatever steps are indicated so that Calligeris will be in a position to attest to the fact that Razmara is reporting Essence's operations in behalf of the cause.
3. As we previously reported, Essence is a Calligeris partisan and it is personally important to him that his activities be known to Calligeris.

George L. Tranger
