RE: [] 163

1. FIND WE HAVE SMALL SUPPLY STENCH VIALS WHICH WE INTEND USE PRIOR
MAY DAY IN AUTOMOBILES RANKING ~~XXXX~~ GOVERNMENT OFFICIALS. WOULD
APPRECIATE MORE SOONEST. HOWEVER, VIALS WE HAVE ARE HARD TO BREAK.
THINNER GLASS DESIRABLE.

2. CAN YOU FORWARD IMMEDIATELY GLASS SMALL TERRGAS PELLETS WHICH
CAN BE PROPELLED CONSIDERABLE DISTANCE BY SLINGSHOT? SHOULD BREAK
ON CONTACT AND DISPELL CONSIDERABLE GAS. MUST HAVE SUFFICIENT WEIGHT
AND BE RIGHT SIZE AND TYPE FOR SLING SHOT USE.

3. ALSO HOPE USE MAY DAY FIRECRACKER STRINGS WHICH WILL GO OFF
IN 3-2 SEQUENCE.

END OF MESSAGE
