SPECIFIC New Location for KUCLUB Installation

rybat/PBSUCCESS

RE: [] 534

1. It would appear that there are many advantages to the transfer of the KUCLUB installation to the new location as outlined in reference.

2. Because it might be necessary to interrupt present communications service and because KUCLUB is unable at this time to provide technical assistance in the move, it is suggested that the transfer of equipment be postponed until the completion of PBSUCCESS.
