C ] 270

Chief of Station, Guatemala

11 April 1954

[ ]  
Operational

Leader for KUGOWN front group

1. For the information of Guatemala, the individual originally selected to head a KUGOWN front group in KMFLUSH to be directed against WSBURNT proved to be unusable. [ ] has since had two agents developing background information on WSBURNT exiles in KMFLUSH in search of a new principal agent, but the process is proving too slow to be timely. For this reason, the following list of WSBURNT exiles living in KMFLUSH is being forwarded to Guatemala with the request that Guatemala search its files for any information concerning these individuals which would be of assistance in narrowing the field of background investigations which must be made. It is also requested that Guatemala indicate any of these individuals who are considered particularly adaptable to head a KUGOWN Front.

2. [ ] is known to this office to have a good reputation, but since he has been in KMFLUSH since 1959, it is believed he would have little interest in the project being considered. What is desired if possible is an individual who has suffered under the present WSBURNT regime.
