DO/IMS 79-345

30 July 1979

MEMORANDUM FOR: Chief, IMS/DDO

FROM: []
Chief, Classification Review Division/ISS/DDA

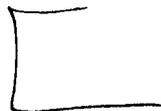

SUBJECT: Classification Review of PBSUCCESS/PBHISTORY

1. The Classification Review Division systematic review of the Latin America Division files on PBSUCCESS/PBHISTORY was completed on 26 July 1979. The time period of the operational files covered by this set of files was from early 1951 through late 1954; however, some background material predates 1951 and some administrative matters postdate 1954.

2. PBSUCCESS/PBHISTORY material reviewed was contained initially in six separate job lots, which were consolidated into one new job lot. The original holding comprised 128.5 cubic feet. After consolidation, all documents were put into 215 archives boxes (107.5 cubic feet), for an overall reduction of 21 cubic feet. This reduction was accomplished through consolidation of boxes by destruction of extra copies of documents and partially filled boxes, and the recommendation for destruction of duplicate sets of files.

3. Prior to beginning the review, all reviewers were instructed to be alert to documents indicative of what might be interpreted as "questionable activities." Any such documents were to be withdrawn from the file and given to the Branch Chief for forwarding to Chief, IMS.

4. 71 documents and one folder were found during the review, and all were handcarried to Chief, IMS for review. To the best of our knowledge except for those documents sent to C/IMS, there are no other documents of the type described above in the files.
