REF: [] 264, 12 May 1954

1. It is agreed that this source could be productive. In this connection the thought again occurs to LINCOLN that we may not be receiving all information procured by CALLIGERIS nets. It should be stressed to CALLIGERIS at every opportunity that we need all the information in his possession. If he feels that the names of some sources should not be divulged, at least he should provide the reports received, together with an evaluation and a description of the source's position and accessibility to information.

2. It is not clear whether Identity A is a witting or unwitting informant of the chief of the CALLIGERIS intelligence net in [] It is assumed that the latter is No. 126 on the organization chart or Ninfa. If Ninfa has this penetration of the Guatemalan Embassy available to him, he should devote all time possible toward its development. CALLIGERIS should inform Ninfa that his primary job at this time is to approach Identity A in an attempt to get detailed information regarding Guatemalan knowledge of PESUCCESS plans and the means by which they propose to meet opposition moves.

3. Please advise LINCOLN of all actions taken regarding this matter.
