22 May 1954

Chief of Station, []

LINCOLN

Administrative
Commendation of Station []

1. LINCOLN wishes to record its appreciation of the consistently conscientious, alert and able performance of duty by the personnel of Station [] since the inception of PBSUCCESS. Without the energetic and dedicated services of Station [] the complex and voluminous PBSUCCESS operations in [] could not possibly have been carried out with the success that has attended them, and Station [] deserves its full share of any credit accruing from these operations.
2. LINCOLN particularly appreciates the completely professional conduct of Station [] personnel. It is fully realized that, under the pressure of work and a fluid situation, Station [] has been subject to not only a heavy workload but frequent changes of emphasis and procedure. During all this, the Station has performed without a word of complaint or a sign of tension. While such standards of professional conduct are expected in theory, they are sufficiently rare in practice to deserve high praise.
3. It is also realized that the volume of LINCOLN support and service requests made on Station [] has probably denied the Station personnel some of the satisfactions that come only from operations that a Station originates. LINCOLN regrets this circumstance, but wishes to assure all Station personnel that their loyal support and service to PBSUCCESS reflect as much and more credit on them than operations of Station origin over an equivalent period.
