MEMORANDUM FOR: Director, Office of Current Intelligence

SUBJECT : Survey of Military Intelligence Production in the Intelligence Directorate

1. By memorandum of 23 May 1966, the Assistant Deputy Director for Intelligence directed that "a broad review of Directorate activities involved in the production of intelligence on military matters" be undertaken to define the issues and problems. The memorandum said, in part, "I expect you to give me your recommendations and the reasons for them. If there are objections to your recommendations, the reasons for the objections and your reasons for not accepting them should be stated."

2. To conduct the survey, I have drawn upon the contributions made by your Office, interviews with numerous OCI persons, and the publications of the Office. I greatly appreciate your cooperation and that of the others in OCI with whom I talked.

3. Copies of the survey are forwarded for your comment. I will be happy to meet with you to discuss any part of this paper. However, I would like to have your formal comments in writing by c.o.b., Friday, 10 March 1967. Mr. Smith has asked to have the survey, including the views of the Office, available upon his return on 20 March 1967.

4. I suggest that the survey not receive any wider dissemination within OCI than is necessary. In particular, it should not be discussed with persons outside the Directorate.
