MEMORANDUM FOR: Mr. Robert Packer
Defense Intelligence Agency

ATTENTION : DB-4N

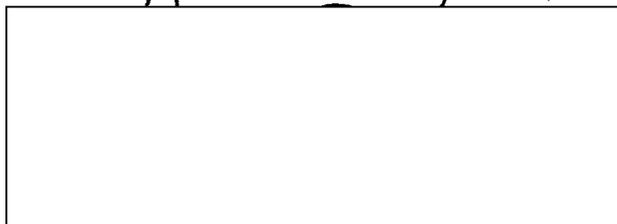

SUBJECT : Cost and Installation Data on
Soviet Data Processing Equipment

REFERENCE : DIA Memo: C-44, 703/DB-4,
13 September 1978

1. Attached, per your request, are two appendices containing requested data on Communist-made computers. Appendix 1 is a list of ruble prices of Soviet and East European computers currently available in our files. In most cases, the figures come from officially published price lists.

2. Appendix 2 is a computer listing, by type of computer, of computer installations in the USSR and Eastern Europe. The file is complete up to about mid-1974, at which time maintenance of the file was discontinued. However, data on computer installations since 1974 have been maintained manually; the work sheets are attached as Appendix 3.

3. Appendices 1 and 2 are for your retention. Please return Appendix 3 at your convenience.
