MEMO. No. 486.

To: 7404.

APPROVED FOR RELEASE  
DATE: JUL 2004 27 March 1945.

From: 7408.

---

7493 telephoned the Legation the other day and asked for 7417 by name. He was told that 7417 would not be back until Monday and then he got through to you. Naturally you did not enter into any form of conversation with 7493 which is all to the good. Nevertheless, for your information the call was duly recorded by the Stockholm security people and they have sent a copy of the recording down here.

2. I suggest that 7417 takes the opportunity of calling 7493 severely over the coals next time they meet, but without disclosing the fact that I have reported that the conversation was tapped. Meantime the incident is useful in that it proves that the Swedes still operate an effective control of the ingoing calls to the Legation.
