/Soroa, Pinar del Rio.

[ ] a cleared area about 50 meters square. On the flatbed of a truck trailer was a long steel object constructed of girders. One end of this object was attached to the trailer bed, and the other end was attached to a heavy chain and hook suspended from a truck-mounted crane parked nearby. This object appeared as if it might be a launcher of some type. It was about 50 feet in length. Piled on the ground close to the launcher were more than a dozen cylindrical metal tubes about 30' long and about 18-20" wide. They were dark in color, as was all the equipment. [ ]
