OFFICE OF THE DEPUTY DIRECTOR (INTELLIGENCE)

(b)(3)

27 July 1962

MEMORANDUM FOR: Special Assistant to the Secretary,
Department of State

Herewith a package on Communist China, summarizing current evidence on the economic situation, popular unrest, and foreign policy attitudes. In view of indications that this year's agricultural production is unlikely to show much if any improvement over the unusually poor 1961 crop, it seems to me we ought to be watching China closely.
