MEMORANDUM FOR THE RECORD

[Redacted]

SUBJECT: James Warren Jones ("Jimmy Jones") 28 December 1978

(b) (1)
(b) (3)

REF: [Redacted] telecon,
5 December 1978

[Redacted] telephoned to ask if we had any record of contact with subject, leader of the People's Temple sect in Guyana where a mass suicide took place in late November 1978. A check of our records revealed only an inactive card dated 17 August 1960 which referenced a State Department source lead (Guide 325 - Travel to USSR) dated August 1960. At that time Mr. Jones lived at 2327 North Broadway, Indianapolis, Indiana. There was no record of further action and the source lead has long since been destroyed. It can be assumed with almost 100% certainty that this lead was not pursued and Jones was never contacted. We have no further info on the subject.
